Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant's representative contacted the Examiner to arrange for an interview. Applicant's representative discussed the prior art and the scope of their invention and how the prior art differs from their invention. The Examiner reviewed the prior art and discussed possible interpretations of the art and discussed the structure of both references and how a broad interpretation of the art meets the claims. The Examiner indicated that several limitations in the claim were broad and provided several interpretations to the representative. The applicant proposed changes and the examiner indicated the changes would overcome the art used in the rejection of record but the Examiner notes that any proposed changes and arguments would have to be submitted in writing to be considered. The Examiner also noted that changes to the scope of claims would require further search and consideration by the Examiner . .
